

Letter to My Father

Dear Dad,

*Thank you for being the man chosen to participate
in bringing my human existence into this world.
You knew not what you were getting into nor that the
road ahead was going to be filled with heartache, loss,
laughter and so much love.*

*Together we learned lessons and we grew wiser.
We watched each other stumble and fall and get back up again and again.*

*Forever we will hold a special Father-Daughter bond that is reserved only
for you and me.*

Thank you for just being you. You were everything I needed to become just me.

*Love,
Cherin*
