To mark its 35th anniversary – Micronic has launched a new easy access website that offers a wide variety of useful information to organizations involved with safeguarding one of their most valuable assets – their samples.

Located at [www.micronic.com](http://www.micronic.com) the new website has been significantly improved. With just a few mouse clicks all products, service and company information can be found from the home page. The website is much more visually appealing and the visitor experience is further enriched through direct access to product video demonstrations, tech notes, product quality information and brochures. The site also provides a background profile on the company and includes information about the state-of-the-art production equipment, clean room facilities and quality accreditation systems that have made Micronic a leader in sample storage technology.
