

# TipOne®

## Introducing Our New Look!

How do you make a great tip system better? Improve handling, storage, and identification and optimize packaging for less waste and easier recycling.

**Same trusted tip!** Our packaging has a new look, but our tips and filters are the same. TipOne® will continue to provide the fit, delivery, and sample protection you depend on.

High definition laser identification on each wafer

### New Rack!

- New ergonomic lid – rack is easier to grasp from the top, especially with smaller hands
- Clear lid front makes wafer color more prominent
- Contoured base is more secure and comfortable to carry
- High definition laser markings identify volume, lot number, and catalog number
- Laser markings ensure correct tip identification when refilling racks
- New 2D barcode for more convenient lot tracing

### New Refill!

- Each tip wafer has high definition laser markings that identify all important tip information
- All volumes nest to save space in your lab and reduce environmental impact during shipment
- Each pack has two sleeves for added protection and convenience
- Outer wrap has large, easy-grip pull tab
- Wafers, bases, and lids are all recyclable #5 polypropylene
